..... Data Storage Solutions

Nobody builds an app to
aimlessly save data.

Starting Point

Persisting with a Purpose

..... Data Storage Solutions

...depends on the *purpose* for
which you're persisting data...

..... Data Storage Solutions

..... Data Storage Solutions

..... Data Storage Solutions

You *may* need to pick up more than one persistence solution in the same app.

..... Data Storage Solutions

Your choice(s) depend on... the **purpose**.

What are some of the possible platforms and frameworks for persisting data?

What are some of the angles to help analyze which might be a good fit?
